## EXPERIENCE

### **Fitch Creations Inc., Pittsboro NC** --- Server

June - December 2016

I worked as a server for the breakfast shift at the Fearington House Inn in Fearington Village. There, I learned fine dining service techniques, how to properly take orders and accommodate customers, and how to work professionally and efficiently under high-stress situations.

### **The Meantime Coffee Co., Chapel Hill NC** --- Graphic Designer

Spring Semester 2017

I worked part time at The Meantime Coffee Co. cafe at UNC Chapel Hill as a designer. I created print collateral for promotions, catering, and other cafe needs.

### **Town Hall Burger and Beer, Chapel Hill NC** --- Server/Marketing

March 2017 - Present

I currently work as a server at Town Hall in Briar Chapel. Working here has increased my customer service abilities, allowed me to learn how to deal with good and bad customers, and given me experience with bar service. I also have had the opportunity to create some print collateral for the restaurant, including a kid's menu.

## EDUCATION

### **Meredith College**

2014 - 2016

At Meredith College I began to study business and general education with a wide range of classes that helped to broaden my educational knowledge. Soon, however, I realized that I had a passion for design rather than business, and that Meredith was not the place for me to pursue that passion.

### **University of North Carolina at Chapel Hill**

*Journalism: Editing & Graphic Design*

2016 - present

After Meredith College, I was able to transfer to UNC Chapel Hill, where I am currently majoring in Journalism with a specialisation in editing and graphic design, as well as minoring in Computer Science. I plan to finish out my undergraduate education at this school and look forward to the many opportunities it will bring.

## SKILLS

Experience in Adobe Illustrator, Indesign, Photoshop, and Premiere Pro

Experience in HTML, CSS, and Javascript

Experience in UX/UI design

Experience in social media marketing

## ABOUT

I am a 22-year-old student at UNC Chapel Hill studying graphic design and computer science. My job history has provided me with several years of experience in customer service. I have also recently been getting more and more experience working with clients on design projects. When it comes to design, I always strive to create my best work. As much as I follow the client's needs, I always try to keep my own personal expression in every piece I create. If a client is not completely satisfied with my initial designs, I take their critiques and suggestions and rethink the piece to best serve their vision. If I have a personal preference, I will explain it to the client, but ultimately I will go with whatever makes them happy.
